Community Innovation Grant Program Final Report Form Questions

1. What were your biggest successes in addressing the community issue/problem you identified for your Community Innovation Grant? What went well? Were there any unanticipated results or surprises in your grant work, either positive or negative?
2. What challenges did you experience in doing the work of your Community Innovation Grant? Were you able to overcome them and, if so, how?
3. In what ways was your project inclusive, collaborative and/or resourceful? Please provide specifics about the tasks, activities, the work itself, and why it was inclusive, collaborative and/or resourceful*?
4. If applicable, did your project make progress toward reducing structural and/or systemic gaps in access, outcomes or treatment based on race/ethnicity or economic standing? (Only for those grantees who included this as a part of their proposal)
5. What are the next steps in sustaining this work? Or, if complete, how will you share the results of this work with others?
6. If you could go back to the start of your grant period and give yourself one piece of advice or learning, what would it be? Why would this have been important to know?

Please attach an income and expense report compared to the original budget submitted.

Please complete the table below by placing an X in as many boxes as apply:

Our project work has focused on...	We did this <i>prior</i> to this grant reporting period	We did this <i>during</i> this grant reporting period	We plan to do this in the future	We do not plan on doing this
Identifying a community need	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Engaging stakeholders to increase collective understanding of the issue	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Generating possible solutions to the issue or problem	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Testing or beginning to implement possible solutions to the issue or problem	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
