# 16TH ANNUAL INTERNATIONAL LEGISLATORS FORUM (ILF)

## Wednesday, June 22 – Friday, June 24, 2016
## Grand Forks, North Dakota

Twenty-four legislators representing North Dakota, South Dakota, Manitoba and Minnesota, along with support staff, experts, presenters, dignitaries and sponsors, gathered in Grand Forks, North Dakota, from June 22 to June 24, 2016 for the 16th Annual International Legislators Forum (ILF).

The ILF is an annual opportunity for delegates to meet, learn, share information, understand problems, build relationships, and develop collaborative approaches and solutions on a wide variety of issues relevant to and affecting the participating jurisdictions. The ILF evolved, through the 2002 Memorandum of Understanding, from the International Flood Mitigation Initiative (IFMI) consultations following the 1997 Red River Basin flood.

Through its annual meetings delegates have addressed a wide variety of issues related to water - quantity and quality; regional energy - production, transmission, and renewable fuels; human and animal health and food safety; methamphetamines and law enforcement; rural access to health care; broadband technology; outmigration and immigration; the Western Hemisphere Travel Initiative (WHTI); tourism; cross border trade; economic and workforce development; and other significant public policy issues. These efforts resulted in agreements that directly and indirectly impact the jurisdictions.

The ILF delegates, during the last few Forums, expressed interest in expanding the topics covered by the Forum to issues not previously discussed that still have cross-jurisdictional impacts. This year, the ILF Steering Committee, in response to this direction from the delegates, selected:

This year's Forum was hosted by the North Dakota delegation and focused on:

- **Aquatic Invasive Species** (aquatic invasive species types and impacts; and regulation and management between the jurisdictions);
- **Genetically Modified Organisms** (genetic engineering technology; differences between federal regulatory models; and impacts of genetically modified organisms); and
- **Human Trafficking** (basics of human trafficking; differences in federal laws between the US and Canada; what the jurisdictions have done to decrease human trafficking; and what services are needed to support the continued decrease in human trafficking in the jurisdictions).

Presenters and panelists shared their expertise, offered topic specific information and engaged the delegates in follow-up discussions and interactions (PowerPoints, handouts, contact information and other materials specific to each presentation can be accessed at the Consensus Council's website: ***www.agree.org/legislators-forum***). All presentations included facilitated discussion times allowing delegates and experts to interact and discuss the topics more fully.

# June 22, 2016
## Wednesday

### Pre-Forum Event – UND Aerospace Department of Aviation - Grand Forks, ND

*"Regional and National Leadership in Flight, Air Traffic Control, and Unmanned Aerial System Research and Learning"*

The Forum began with a special pre-Forum event hosted by the UND Aerospace Department of Aviation and guided by **Chuck Pineo**, CEO, UND Aerospace Foundation and **Ken Polovitz**, Assistant Dean, UND Department of Aviation. Participants spent the afternoon engaged in a variety of presentations, tours and demonstrations featuring training tools for the commercial pilot and the air traffic controller programs and the research developments in space studies, specifically space suits and small living environments.

### Opening Social – North Dakota Museum of Art

The ILF delegates enjoyed a friendly and congenial reception, sponsored by **Touchstone Energy Cooperatives**, at the North Dakota Museum of Art.

# June 23, 2016
## Thursday

### Opening – UND Center for Innovation, James C. Ray Idea Lab

Senator **Larry Luick** and Representative **Lois Delmore**, North Dakota (host jurisdiction's and ILF Steering Committee representatives) welcomed the ILF delegates and observers to the first day of plenary sessions. The Forum's history and purpose were reviewed. Dignitaries, sponsors, work group members, and presenters were recognized and thanked for their time and talent.

The jurisdictional delegates completed a round of self-introductions including how long they have served in office, who/where they represent, and how long they have attended the ILF. The meeting process and rules, the agenda and meeting materials were reviewed. (Note: This is the third year the Forum utilized a fully electronic/digital approach to meeting materials and handouts. Materials were provided to meeting participants on a flash drive and/or were accessible directly on the Consensus Council's website: ***www.agree.org/legislators-forum***.)

### Plenary Sessions: Day One

#### *Aquatic Invasive Species*

Presentation PowerPoints, handouts, contact information and other related materials can be accessed at the Consensus Council's website: ***www.agree.org/legislators-forum***. Aquatic Invasive Species Work Group participants, **Becca Nash**, Associate Director of the Minnesota Aquatic Invasive Species Research Center, University of Minnesota; **Mike Smith**, Aquatic Invasive Species Coordinator and Senior Fisheries Biologist, South Dakota Department of Game, Fish & Parks; and **Justin Shead**, Manitoba Sustainable Development – Aquatic and Invasive Species Ecologist, informed the development of the presentation.

#### *Section #1 – Aquatic Invasive Species 101*

The presenters provided an analysis of Aquatic Invasive Species (AIS) definitions between jurisdictions, basic examination of pathways of transmission of AIS and an investigation of specific AIS species impacting the jurisdictions. The presentations covered invertebrates – Quagga and Zebra Mussels; fish – Invasive Carp, plants – Eurasian Watermilfoil and Curlyleaf Pondweed; and diseases – VSP.

- **Jeff Long**, Manitoba Sustainable Development – Manager, Wildlife and Fisheries Branch.
- **Heidi Wolf**, Minnesota Department of Natural Resources Aquatic Invasive Species Supervisor.
- **Jessica Howell**, North Dakota Department of Game and Fish Aquatic Nuisance Coordinator.

*Break: Sponsored by the ND Soybean Growers Association*

### *Section #2 – Aquatic Invasive Species Across the Jurisdictions*

This session considered the various management, research, and outreach and public education programs in which the different jurisdictions engage to attempt to control aquatic invasive species. The session allowed for discussion with the ILF delegates around the cooperation between jurisdictions in controlling the spread of aquatic invasive species.

- **Jeff Long**, Manitoba Sustainable Development – Manager, Wildlife and Fisheries Branch.
- **Heidi Wolf**, Minnesota Department of Natural Resources Aquatic Invasive Species Supervisor.
- **Jessica Howell**, North Dakota Department of Game and Fish Aquatic Nuisance Coordinator.

## Luncheon

Genetically Modified Organisms (GMO): Facts versus Fiction – Professor Anita Brule-Babel, University of Manitoba, provided a presentation on the basics of Genetically Modified Organisms covering the difference between genetic modification/engineering and traditional trait-breeding methods; the differences in federal regulatory oversight between the United States and Canada; and how the utilization of GMO Herbicide Tolerant crops has impacted the growth of herbicide resistant weeds (presentation PowerPoints, handouts, contact information and other related materials can be accessed at the Consensus Council's website: www.agree.org/legislators-forum/). GMO Work Group Participants **LeLoni Scott**, Manitoba Agriculture, Food, and Rural Initiatives – Assistant Deputy Minister; **Don Huber**, Professor Emeritus of Plant Pathology, Purdue University; and **Doug Jones**, Growers for Biotechnology – Executive Director, informed the development of the GMO Work Group Presentation and Panel.

## Human Trafficking

Presentation PowerPoints, handouts, contact information and other related materials can be accessed at the Consensus Council's website: ***www.agree.org/legislators-forum***.

### *Section #1: Human Trafficking 101*

Presenters provided an examination of current federal human trafficking laws in Canada and the United States along with an in-depth examination of the incidence and prevalence of human trafficking in the two countries.

- **Nathalie Levman**, Counsel, Criminal Law Policy Section, Justice Canada
- **Christina Sambor**, Director, Force to End Human Sexual Exploitation (FUSE), North Dakota

*Section #2: Efforts to Combat Human Trafficking*

Presenters shared current programs within North Dakota and Manitoba being implemented to combat human trafficking in those jurisdictions.

- **Christina Sambor**, Director, Force to End Human Sexual Exploitation (FUSE), North Dakota
- **David Greening**, Executive Director, Crown Law Analysis & Development Branch, Civil Law Division, Manitoba Justice

## Reception and Dinner – UND Gorecki Alumni Center

A reception and dinner, graciously sponsored by the Consul General of Canada, Minneapolis, Minnesota, highlighted Thursday evening.

The reception provided delegates the opportunity to network with colleagues and peers, and enjoy a welcome from UND Provost and Vice President for Academic Affairs, **Dr. Thomas M. DiLorenzo**. **Jamshed Merchant**, outgoing Consul General of Canada, Minneapolis, Minnesota, thanked the International Legislators Forum for the opportunity to be involved in the Forum during his tenure as Consul General. The Consul General also pledged to work to maintain the Consulate General's involvement in the ILF after his term ends in August. **Christopher J. Gunning**, Consul and Principal Officer, United States Consulate, Winnipeg, Manitoba, thanked the ILF for the opportunity to be involved, emphasizing the importance of continuing to come together to work on inter-jurisdictional issues.

The ILF recognized North Dakota Senator Ron Sorvaag and Former Manitoba Minister of Justice Gord Mackintosh for their work as retiring members of the International Legislator's Forum Steering Committee.

Friend, colleague and fellow North Dakota ILF delegate Representative Dennis Johnson led the ILF in a remembrance of the late Representative **Curt Hofstad**.

# June 24, 2016
## Friday

### Breakfast

*Legislators (only) Breakfast*

The "Legislators (only) Breakfast" is a quasi-facilitated event for candid delegate discussion in preparation for the From The Floor session.

### Plenary Sessions: Day Two

*Genetically Modified Organisms*

Presentation PowerPoints, handouts, contact information and other related materials can be accessed at the Consensus Council's website: ***www.agree.org/legislators-forum***. GMO Work Group Participants **LeLoni Scott**, Manitoba Agriculture, Food, and Rural Initiatives – Assistant Deputy Minister; **Don Huber**, Professor Emeritus of Plant Pathology, Purdue University; and **Doug Jones**, Growers for Biotechnology – Executive Director, informed the development of the GMO Work Group Presentation and Panel.

*Section #1: GMO Legislative Implications Panel Discussion*

Panelists provided a review of the regulatory frameworks within the jurisdictions and at the federal levels in Canada and the United States. They also provided their opinions on the importance of supporting GMO use, reduced regulation, and continued research.

- MLA **Cliff Graydon** (MB)
- Senator **Joe Miller**, North Dakota Legislature
- **Nancy Wulfekuhle**, Sugar Beet Producer, North Dakota and Minnesota

# FROM THE FLOOR

***From the Floor*** **provides delegates the opportunity to engage in open and flexible discussion of their observations and learning moments from the Forum. Using a consensus-based decision-making process they develop conclusions, agreements, and recommendations**

## AQUATIC INVASIVE SPECIES

*Conclusions and Recommendations:*

The delegates of the 2016 International Legislators Forum:

- **Commend** the thoroughness and the coordination of the presentations and the leveraging of the expertise from all of the jurisdictions.
- **Recognize** that aquatic invasive species have dramatic negative impacts on all of the ILF jurisdictions, especially economically, environmentally, and socially.
- **Applaud** the continued involvement of jurisdictional agencies in inter-jurisdictional coordination in dealing with aquatic invasive species.
- **Recommend** the coordinated harmonization of messaging, rules, symbols, and public education between jurisdictions to increase the impact of existing control programs.
- **Urge** all jurisdictional officials involved in controlling aquatic invasive species to increase the coordination and cooperation between the jurisdictions.
- **SUPPORT** and **ENCOURAGE** an increase of youth education and outreach by agencies involved in aquatic invasive species controls within the jurisdictions, through jurisdictional education channels such as Project Learning Tree.

## HUMAN TRAFFICKING

*Conclusions and Recommendations:*

The delegates of the 2016 International Legislators Forum:

- **Agree** that human trafficking is a heinous and very serious crime and violation of basic human rights.
- **Recognize** the need to address victim and service provider confidentiality within the jurisdictions.
- **Recognize** the importance of training for law enforcement and service providers in the recognition and identification of high risk and trafficking victims.
- **Recognize** the importance of communicating about victims and traffickers within and between jurisdictions by law enforcement and service providers.
- **Support** the passage of inter-jurisdictional safe harbor laws similar to the Uniform Law Commission Model Legislation.

## GENETICALLY MODIFIED ORGANISMS

*Conclusions and Recommendations:*

The delegates of the 2016 International Legislators Forum:

- **Recognize** the need for balanced education and research of genetically modified organisms.
- **Agree** that genetic modification is an extremely powerful tool for agricultural, commercial, and industrial uses.

## Wrap-Up

The Steering Committee members, the North Dakota host delegation, the working groups, the sponsors, the Canadian and U.S. Consuls and their staff, and the many others who assisted in planning and presenting the 2016 International Legislators Forum were identified and thanked. Participants were asked to complete and submit evaluation forms.

## Adjournment

Participants were advised that:

- The 2017 International Legislators Forum will be hosted by Manitoba.

The 2016 International Legislators Forum adjourned with a wish to all for safe travels and an enjoyable and productive remainder of the summer.

## Media Initiatives and Contacts

Local and regional media representatives were provided with background information on the Forum, media releases and invitations to attend the Forum. Additionally, Consensus Council Senior Program Director Scott Fry and North Dakota Senator Philip Murphy participated in interviews with local media representatives.

# Achievements of the International Legislators Forum (ILF) 2001–2016

**Following is an abbreviated listing of the achievements and actions identified and approved by the delegates during the past 16 International Legislators Forums.**

- Secured a Memorandum of Understanding (MOU) from respective legislative leaders in all four jurisdictions to continue the annual meetings.
- Secured a Memorandum of Understanding (MOU) from respective legislative leaders in all four jurisdictions to continue the annual meetings.
- Learned about differences in structure and process in the respective states and provinces.
- Learned that the delegates share many of the same issues and values and wish to learn more from each other about best practices for addressing them together.
- Interacted annually with the Canadian Consul General, based in Minneapolis, and the US Consul and Principal Officer in Winnipeg, both of whom have been significant supporters of the LF efforts.
- Shared information and agreements reached at the LF meetings with the federal governments in both countries through the respective Consuls.
- Sponsored and helped initiate what became "2Nation Tours," involving the travel and tourism agencies of all four jurisdictions.
- Supported the Conservation Reserve Enhancement Program (CREP), especially in the states because it is aimed at enhancing the Conservation Reserve Program (CRP) in the US.
- Supported the establishment of a 600-mile "Greenway" from the source of the Red River and on its tributaries to its termination in Lake Winnipeg. The efforts to develop it have expanded and continue today.
- Supported the Prairie Public Television/Radio "River Watch" program, which was linked to the Greenway and other flood control and mitigation efforts throughout the region and helped to secure multiple years of funding for that program, as well as the Greenway, from the Otto Bremer Foundation.
- Discussed mutual water quality issues and the many water quality problems that are shared among the jurisdictions and agreed that it will be essential to work together to address those issues.
- Advanced the discussion about the enhancement of renewable fuels and energy transmission capacity in the region, which was responsible, in significant part, for the work done by the Great Plains Institute (GPI), Powering the Plains (PTP) process and the work of the Midwest Governors Association.
- Encouraged agricultural harmonization legislation and regulation at the national levels in both countries and contacted the US Environmental Protection Agency (EPA) and the Canadian Pest Management Regulatory Agency (PMRA) in support of the work of the Agriculture Harmonization Working Group and broadening, expediting and prioritizing that work.
- Supported pilot projects for pesticide labeling applicable across US and Canadian borders - now applied to 3 pesticides.
- Authored letters of support to appropriate agencies in the US and Canadian federal governments to encourage the adoption of a regional inter-jurisdictional action process in case of disease outbreak to ensure the containment and quick eradication of these outbreaks in the region. These included handling food safety and security in an economical and efficient manner by using inter-jurisdictional expertise and scientific technology and brought responsible agency people from all four jurisdictions together between several annual LF meetings to begin their work together in this area.
- Supported an emergency management mutual aid agreement and emergency management experts working together across borders.
- Facilitated a meeting of the three Attorneys General and the Justice Minister to provide updates on inter-jurisdictional criminal justice issues, progress on dealing with methamphetamine, and to sign an agreement to develop an "Amber Alert" system throughout the four jurisdictions to assure quick, coordinated service in the event of child abductions.
- Supported inter-jurisdictional sharing of best practices in "healthy living."
- Supported greater rural access to medicine to ensure access to appropriate health care for all citizens in the region.

- Encouraged the public and private sectors in this region to work together to enhance broadband technology and other infrastructure, especially in rural areas.

- Supported a regional effort to enhance rural and community development, beyond simply economic development and including support for immigration.

- Contacted the Department of Homeland Security, other relevant agencies and states' Congressional offices and requested that they ensure border crossings for citizens in the US and Canada remain as seamless as possible. Emphasizing the belief that the two countries share so much in terms of history, culture, mutual relations and issues that: "Whatever decisions are made with regard to implementation (of cross-border identification requirements), there needs to be sufficient time to develop a thorough, comprehensive and accurate cost-benefit analysis of all proposed solutions; sufficient time to implement the regulations; and sufficient time to ensure that all privacy concerns are adequately addressed. Finally, the regulations need to be affordable by states and provinces and their citizens." The delegates share a belief that their input has had a significant impact on achieving the delay and reconsideration of many border-crossing identification regulations.

- Recommended the development of mutually supportive research and development initiatives and agreements that would clarify and enhance collaborative efforts.

- Agreed that water issues relative to the Red and Missouri Rivers be considered and addressed from a "basin-wide" perspective.

- Acknowledged and supported trade and border policies that foster cooperation, coordination, collaboration and are efficient, effective and economical.

- Supported a forward-looking process to assess and address infrastructure (including digital and broadband) needs throughout the region.

- Recommended a comprehensive review of existing highway transportation regulations and needs; and supported the development of consistent, comprehensive region-wide guidelines.

- Supported collaborative efforts to identify and address the threat of invasive species in the region.

- Recommended the adoption and integration of education/training and immigration policies that support the region's workforce needs.

- Developed a set of general principles regarding energy development and related policies.

- Recognized the interconnection and logic of dealing with water issues on a basin-wide level and supported cooperative, coordinated and collaborative basin-wide and basin-to-basin efforts.

- Recognized the growing value and importance of the Missouri River, it's impact on the regional economies and supported the need for a proactive, collaborate plan for its responsible management that incorporates jurisdictional assessments, full stakeholder involvement, and a solutions orientated approach.

- Recognized the efforts and investments being made by the rail industry to maintain, expand and improve the infrastructure and enhance safety and encouraged the continuation of an aggressive program of investment and improvement.

- Acknowledged the research-based value of early childhood development programs and investments and their positive effect upon workforce development and a broad range of societal and economic factors while supporting jurisdictional autonomy in program and service development.

- Recommended the coordinated harmonization of messaging, rules, symbols, and public education between jurisdictions to increase the impact of existing control programs.

- Urged all jurisdictional officials involved in controlling aquatic invasive species to increase the coordination and cooperation between the jurisdictions.

- Supported and Encouraged an increase of youth education and outreach by agencies involved in aquatic invasive species controls within the jurisdictions, through jurisdictional education channels such as Project Learning Tree.

- Agreed that human trafficking is a heinous and very serious crime and violation of basic human rights.

- Recognized the need to address victim and service provider confidentiality within the jurisdictions.

- Recognized the importance of training for law enforcement and service providers in the recognition and identification of high risk and trafficking victims.

- Recognized the importance of communicating about victims and traffickers within and between jurisdictions by law enforcement and service providers.

- Supported the passage of inter-jurisdictional safe harbor laws similar to the Uniform Law commission Model Legislation.

# International Legislators Forum (LF) Annual Highlights/Focus

**During all annual meetings of the Legislators Forum, water issues have been a topic of conversation in the context of flooding, drought and water quality. In addition, each year has had a specific focus and at least one highlight issue. Those issues have included:**

**MB 2001**—Sponsorship of 2Nation Tours, a travel and tourism program among the four jurisdictions.

**MN 2002**—Memorandum of Understanding (MOU) among legislative leaders in the four jurisdictions to meet annually and provide substantial support for Conservation Reserve Enhancement Programs (and analogous programs in Canada) in order to address flooding, drought and water quality issues.

**SD 2003**—Establishment of a regional renewable fuels working group called Powering the Plains (PTP) and beginning efforts to bring emergency management officials from the four jurisdictions together to enhance cooperation and coordination across borders.

**ND 2004**—Beginning of significant efforts to study methamphetamine and pharmaceutical issues across borders in order to address addiction issues and alternatives to incarceration.

**MB 2005**—Building on the agreements to address methamphetamine issues across borders, broadened the discussion to include collaboratively addressing all inter-jurisdictional criminal justice issues.

**MN 2006**—Emphasized the importance of basing water related public policy issues on sound science. Supported the efforts of the four jurisdictions' Attorneys General to address methamphetamine and criminal justice issues and their signing of an inter-jurisdictional Amber Alert MOU to enhance mobilization in the case of child abduction.

**SD 2007**—Provided broad support for the Regional Energy Roadmap that had been developed by the PTP participants, supported the enhancement of broadband technology, especially in rural areas of the four jurisdictions and expressed significant concerns to the US Department of Homeland Security and other relevant US and Canadian entities about the implementation of the Western Hemisphere Travel Initiative (WHTI).

**ND 2008**—Highlighted issues related to rural community development, health and infrastructure issues, including the need for further enhancement of broadband technology in the region and continued the ongoing discussions of water (LIDAR mapping), energy and cross-border identification issues.

**MB 2009**—While specifically focusing on Lake Winnipeg, the delegates developed agreements to address regional water quality and quantity issues, regional energy issues and cross-border security, identification and tourism.

**MN 2010** – Discussions centered on water issues in the Red River basin and included recommendations and requests from the Red River Basin Commission regarding management, impoundment, retention and diversion. Energy, commerce, border security and the media were also highlighted.

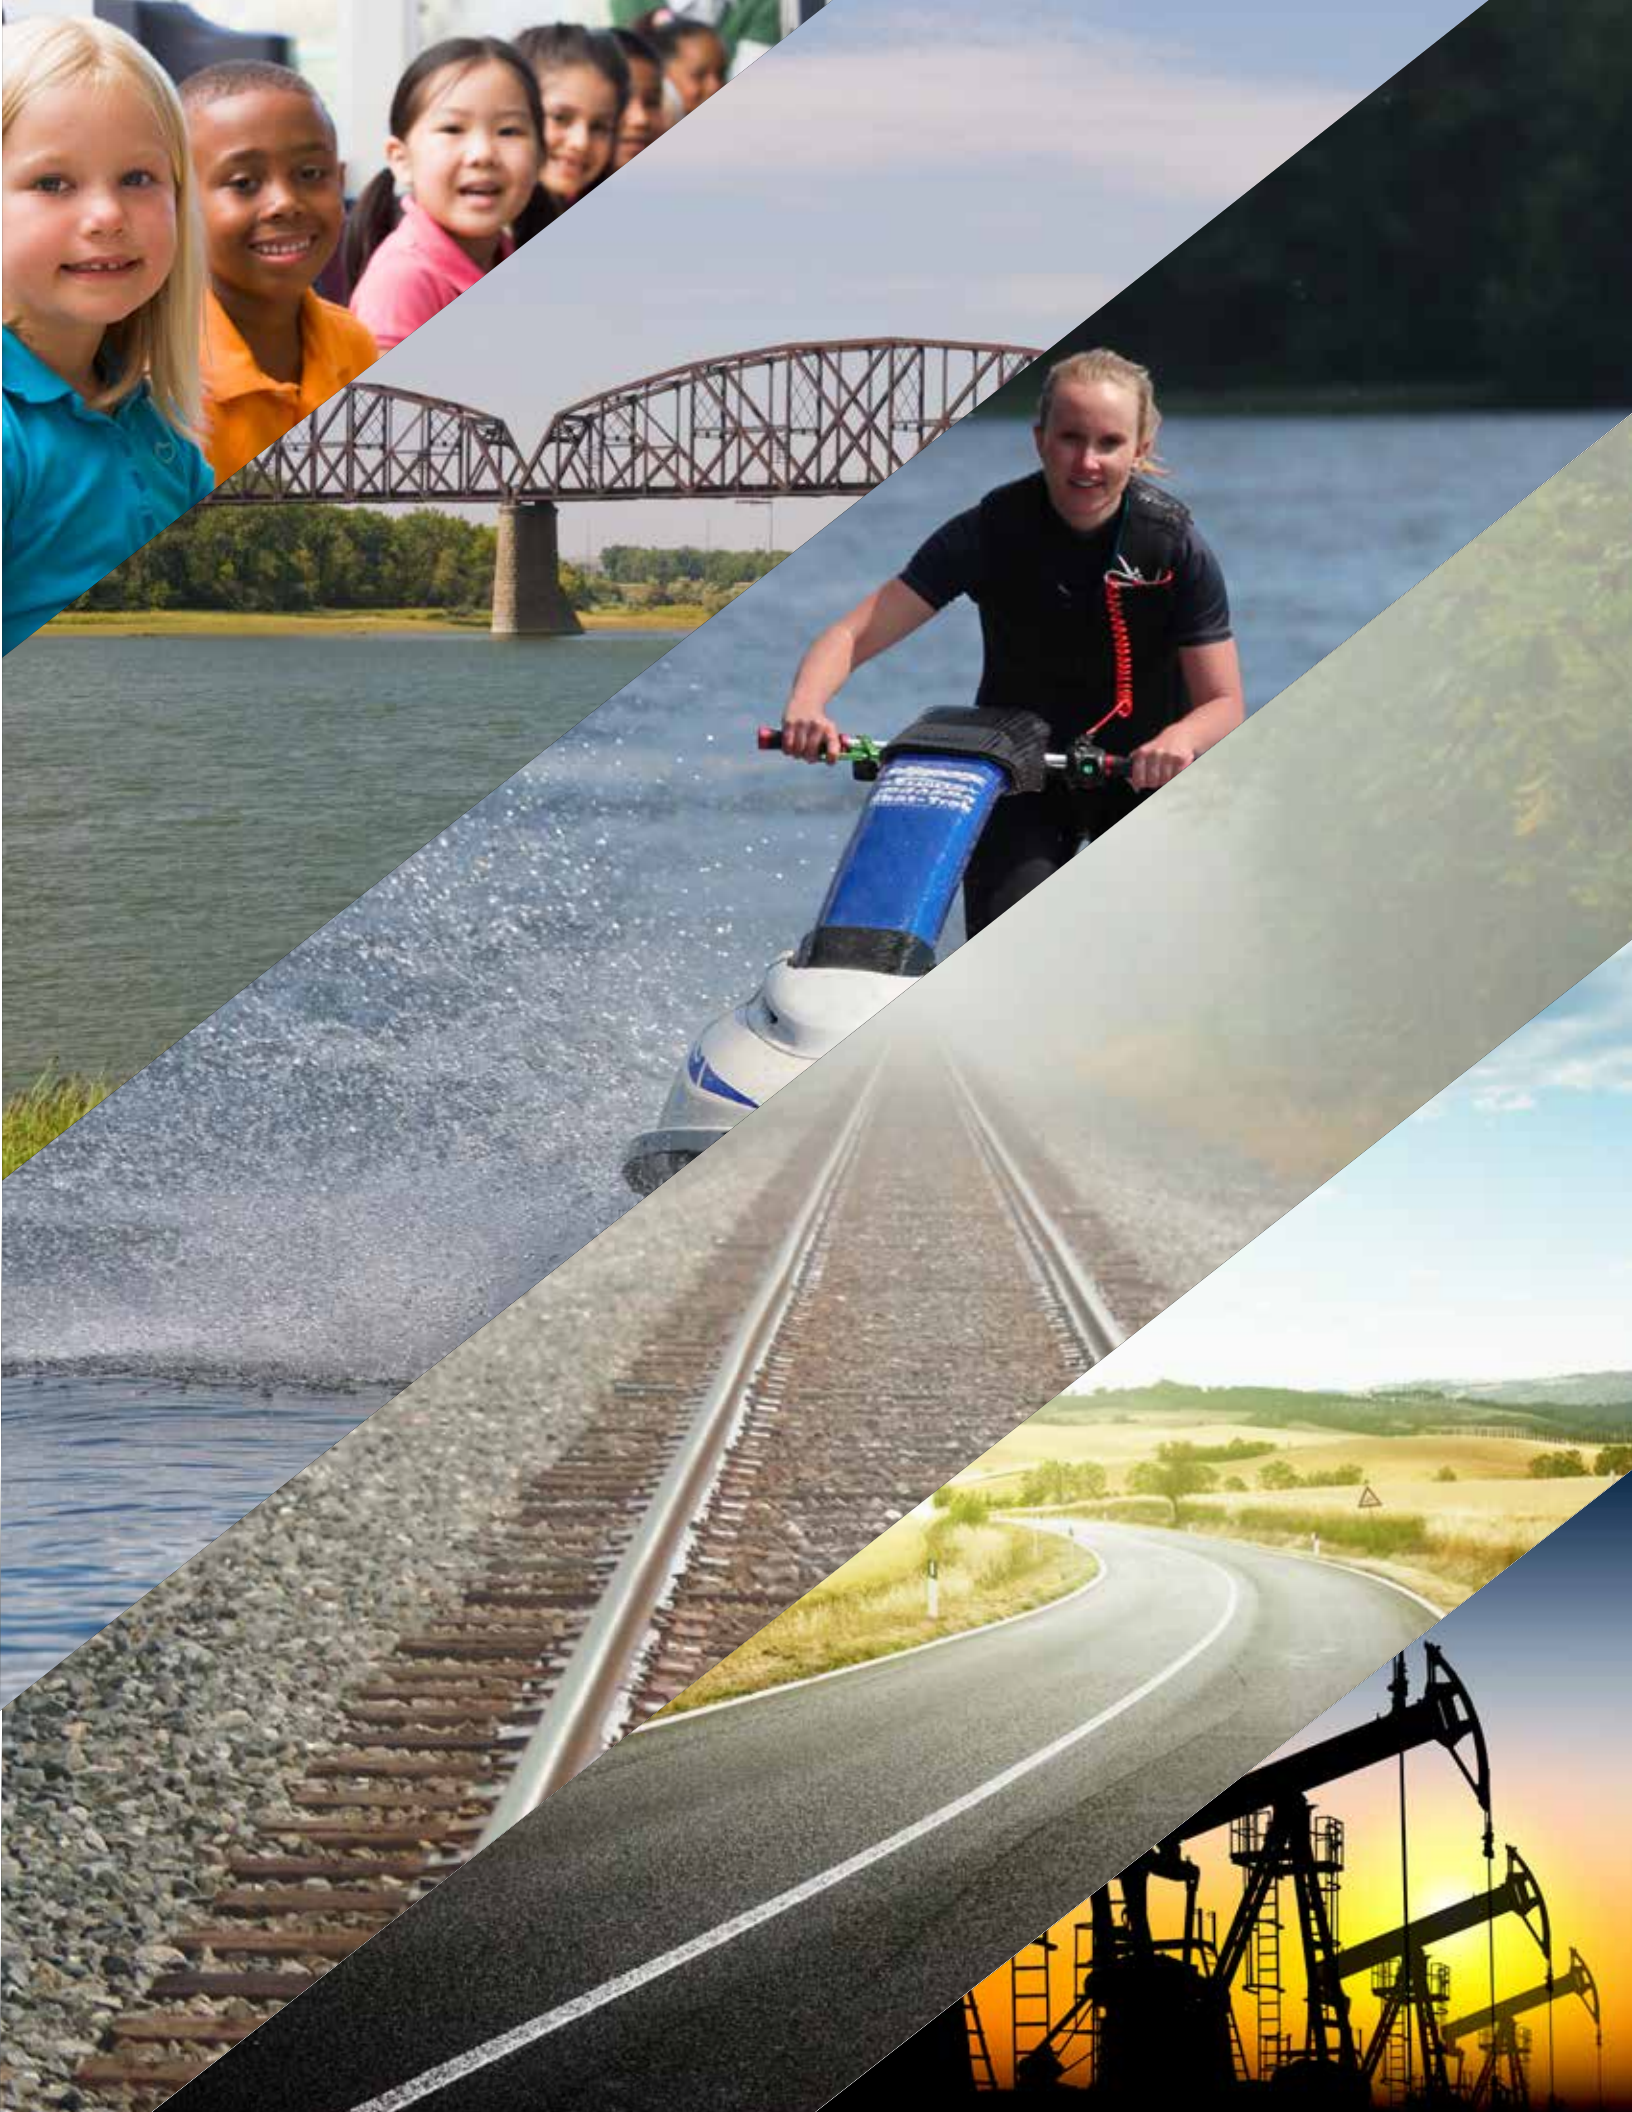
**SD 2011** – In addition to updates and discussion on the developments in the Red River Basin, the focus of the Forum was on research and development efforts within the four jurisdictions and the existing and potential opportunities for collaborative initiatives.

**ND 2012** – The Forum focused on energy (integrated regulations); water (basin-wide collaboration); and trade (coordination and harmonization of regulations and policies).

**MB 2013** - Delegates addressed the existing economic relationships throughout the region and explored options to support and expand opportunities to leverage the regional and cross-border relationships to strengthen the economic future of all the jurisdictions. Additionally, the delegates outlined a set of general principles regarding energy development and related policies.

**MN 2014** - Members of the delegation, guests and sponsors participated in a variety of agricultural-related presentations, demonstrations and activities that provided an overview of the historical aspects of the agricultural industry, its current role in the region and nation, the use of current and developing technologies, and the ever increasing demands to supply food for the world's growing population.

**SD 2015** – Delegates addressed the issues of infrastructure and regulation of highways and railways, models and efforts to address current and future workforce needs, and updates, regulations and initiatives in the Missouri River Basin.



# Thank you!

A number of individuals, agencies, groups, businesses and organizations provided assistance, sponsorship and expertise to support the many aspects and components of the 2016 International Legislators Forum. Although it is not possible to identify everyone, the Steering Committee would like to express their sincere gratitude and appreciation to everyone who provided support and assistance in so many ways. They helped to make this year's Forum a reality and a success.
